### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 1625

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 57-64, drawn to coumarinyl-7-phosphates, classified in class 549, subclass 220.
- II. Claims 65-85, drawn to a method for specifically detecting and/or measuring the activity of an organophosphate enzyme, classified in class 435.
- III. Claims 85-95, drawn to fluorescein phosphates, classified in class 549, subclass 220.
- IV. Claims 96-98, drawn to a method for specifically and selectively detecting and/or measuring the activity of an organophosphatase enzyme, classified in class 435.

The inventions are independent or distinct, each from the other because:

The active ingredient in Gp. I is of a narrower scope than that in the method of use claims. The compounds can have uses other than in the instant methods. See US Patent 3,457,332 to Schrader et al, cited by applicants in which similar coumarinyl phosphates are used as intermediates for fungicides. See col. 9, lines 40 and 41.

Of course the fluoresceins of Gp. III constitute a different art than the coumarinyl compounds of Gp. I.

Another factor in favor of restriction is the very close art.

Regardless of the Gp. elected applicants must elect a single disclosed species to which the claims will be limited in case no generic claim is found to be allowable

Art Unit: 1625

.Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicants must submit a copy of all the non-patent references which have been cited.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Dentz whose telephone number is 571-272-0683. The examiner can normally be reached on Mon-Fri from 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas McKenzie, can be reached on 571 272-0670. The fax phone
